About Campfire:

Creative music collaboration app

Job Function:

Other

Job Summary:

We are searching for a passionate and driven individual to join as a Co-Founder for an app in the Music/Entertainment/Content Creator space . This role is ideal for someone who has prior experience as a founder and is looking for a new, exciting project to dive into. We also welcome motivated first-time founders with a strong entrepreneurial spirit who are seeking the right idea to bring to life. As a Co-Founder, you will play a pivotal role in shaping the vision, strategy, and execution of the app. You will work closely with the existing team to bring this idea from the concept stage to a fully functional, market-ready product.

Job Description:

Co-Founder, Motivated individual looking for next entrepreneurial project, develop Campfire app, Blockchain-based software platform and application for music collaboration.

- Vision & Strategy: Collaborate on defining the product vision and strategic direction of the app.
- Product Development: Lead or contribute to the development and design of the app, working with designers, developers, and potential users to create a product that meets the needs of the music community.
- Market Research: Conduct market analysis to understand the needs of potential users, identify competitors, and help define the app's unique value proposition.
- Fundraising: Assist in securing initial funding through venture capital, grants, or other means.
- Business Development: Build partnerships with key stakeholders in the music industry, including artists, producers, record labels, and technology partners.
- Team Building: Play a crucial role in recruiting additional team members as the project grows.
- User Acquisition: Develop and execute strategies to attract and retain a passionate user base.

Requirements / Qualifications:

- Founder Experience: Prior experience as a founder or co-founder is highly desirable, though highly motivated first-time founders will also be considered.
- Entrepreneurial Spirit: Demonstrated ability to take initiative, work independently, and drive projects

forward.

- **Passion for Music:** A deep love and understanding of music and the creative process, with a strong desire to make an impact in the music industry.
- **Technical Knowledge:** While not mandatory, experience in app development, UX/UI design, or digital music production is a plus.
- **Fundraising Experience:** Proven ability to secure funding for early-stage startups is an advantage.
- **Collaborative Mindset:** Ability to work effectively in a team and collaborate with diverse stakeholders.
